Product name: DC to AC modified sine wave 200w inverter Model No.: NM200-12V/24V Working principle: Inverter is the DC power (battery, accumulator jar battery) into alternating current (usually 220v 50Hz 60Hz sine wave or modified sine wave).

Yes, this would work but only when connected to an active grid with a grid-tie inverter. A single phase 120VAC grid-tied inverter synchronizes to the utility phase then ups the voltage some to provide the amperage to provide power to the house over the utility and if there is surplus, back-feed the utility.
