

15kw high quality inverter for sale in Cebu Philippines

What is a solar power inverter in the Philippines?

A solar power inverter in the Philippines not only converts the energy from the sun to usable energy but also serves as a communicating device that tells whether your solar PV system is experiencing problems.

How long does a solar power inverter last in the Philippines?

If you purchase a solar power inverter in the Philippines, you can expect to recover from your investment within 6 to 7 years of use. And because the average lifespan of solar power inverter systems is between 10 to 15 years, you can still benefit from substantial investment returns.

Why should you invest in a solar power inverter in the Philippines?

Investing in a solar power inverter in the Philippines helps you reduce your carbon footprint because it creates clean and green energy from the sun. At Solaric, our focus is to provide clean sustainable energy systems and energy conservation devices. So if you want to do your part in saving the planet, go solar.

How long does a solar power inverter last?

And because the average lifespan of solar power inverter systems is between 10 to 15 years, you can still benefit from substantial investment returns. To add to that, the grid tie inverter price in the Philippines has dropped to its lowest figures in the past 10 years.

Does Solaric sell SolarEdge inverters in the Philippines?

Solaric is an authorized distributor of SolarEdge inverters in the Philippines. We also help our clients carry out installation, site planning, and commissioning. We offer a full suite of SolarEdge inverters (single phase and 3 phase) that operate in the following grid types: regular 230V Single (split) phase, 400V Wye, and 230V Delta.

What is a solar power inverter?

You can say it is the brain or center processing unit of solar PV systems. A solar power inverter functions by converting the direct current (DC) output of a solar PV system into an alternating current (AC). AC is fed into your home to power all your items that need electricity including appliances and gadgets.
