

3000w sine wave mobile power box

What is a 3000-watt pure sine wave inverter?

Designed for harsh environments, it has been completely overhauled. Our 3000-watt pure sine wave inverter now boasts a dual GFCI outlet and is FCC certified. It is one of the cleanest and most efficient pure sine wave inverters on the market today. This inverter provides a half-second surge to 6000 watts - longer than other inverters in its class.

How much power does a sine wave inverter provide?

This inverter provides a half-second surge to 6000 watts - longer than other inverters in its class. With this pure sine wave inverter, 3000-watt power will be available for quiet, productive use. This product includes a thermally controlled fan, allowing for increased efficiency and less noise.

What is a pure sine wave inverter?

With this pure sine wave inverter, 3000-watt power will be available for quiet, productive use. This product includes a thermally controlled fan, allowing for increased efficiency and less noise. It will continue to put out stable, pure sine power and maintain output voltage even as your battery bank voltage decreases.

What is pure sine power used for?

Pure sine power is also preferred for laser jet printers, sensitive electronics and computer servers as well as microwaves, medical equipment, anything with a circuit board and cordless drill battery chargers. An external battery voltage sensor lets you monitor your battery capacity and power consumption.

What is a pure sine inverter used for?

This inverter is ideal for running nonlinear loads such as variable speed motors and small compressors. Pure sine power is also preferred for laser jet printers, sensitive electronics and computer servers as well as microwaves, medical equipment, anything with a circuit board and cordless drill battery chargers.

Yes. A "50A RV" vs. a "30A RV" refers to the size of the shore power AC input. "30A" uses a single 30A 120VAC feeder. "50A" uses a 50A 240VAC feeder at the shore power pedestal, which is split into two 120VAC busses inside the RV's power distribution box, each capable of 50A and powering separate banks of 120VAC breakers.

Our largest pure sine wave inverter, the Go Power! GP-ISW3000 is the ultimate choice for large loads that demand an exact replica of AC power. The GP-ISW3000 can run any tool or appliance within its wattage range. The GP-ISW3000 is the professionals choice for clean reliable power when you need it.
