Promovec Group A/S, led by entrepreneur Jesper Lundqvist, has acquired the remaining 25% of battery manufacturer Viridus Manufacturing A/S. top of page. Solutions. Responsibility. Company Aarhus-based Battery Factory 100% Danish-Owned. Jens Holm-Christensen. 2 min read ...

o JOB: 7 Mar - Chemistry, Dept. of Deadline 9 Apr 23:59 CEST Expected start 1 Jun Chemistry, Dept. of Langelandsgade 140 8000 Aarhus C Fixed term full-time position 1 Jun 2025 - 31 May 2027 ID: 17499 The Ravnsbæk Groups at the Department of Chemistry, Aarhus University, is seeking a candidate for a

Lithium-ion batteries are used in various electronic devices and equipment, and the performance of these batteries are often crucial to how well these technological advancements operate (4). ... Bentien's work uses atomic spectroscopy technologies to study flow battery systems at Aarhus University in Denmark (1). With access to the Agilent ...

233 scholarship, research, uni job positions available lithium-battery-research positions available on scholarshipdb, Denmark. ScholarshipDb. PhD; Postdoctoral; Master; Undergraduate; Featured ... Technical University of Denmark 114; Aarhus University 36; Aalborg University 21; University of Copenhagen 18; University of Southern Denmark ...

We are seeking a candidate for a 2-year postdoc (fulltime) with competencies in Li-ion battery research especially within lab-scale battery fabrication, electrochemical analysis and evaluation of novel battery components. Starting date: March 1, 2022 or as soon as possible after. Place of work: Langelandsgade 140,8000 Aarhus C, Denmark.

The position focuses on developing innovative binder formulations for Li-ion batteries, emphasizing water-processable materials and their application in battery electrodes. Location. The position is based in Aarhus, Denmark, at ...

The Ravnsbæk Groups at the Department of Chemistry, Aarhus University, is seeking a candidate for a 24 month postdoctoral position. You will join the project BeyondBetterLibs, which concerns the development of novel fluorine free, water-processable binder formulations for Li-ion battery electrodes.

The company Viridus has started the production of e-bike Lithium-Ion batteries at its modern Aarhus facility. Viridus aims for close to market production to counterbalance the supply of ...

tools, etc. Lithium metal batteries or cells . are non-rechargeable (primary) lithium metal or lithium alloy cells or batteries. These have a longer life than standard alkaline batteries or cells, and are commonly used in cameras, smoke detectors, etc. Lithium Ion Batteries or Cells. Lithium Metal Batteries or Cells.

AC Propulsion sends eBox EV to Denmark for V2G research focused on buffering intermittent renewable energy. Green Car Congress. JULY 13, 2011. AC Propulsion has delivered an AC Propulsion-powered eBox to the Technical University of Denmark (DTU), where it will be used to evaluate Vehicle to Grid (V2G) operation as part of a research program. The eBox ...

In 2019, LEVA-EU member Greenway invested in a new battery pack manufacturing facility, Viridus Manufacturing A/S in Aarhus, Denmark. After 3 years of growth, the site was ready for expansion and doubled production ...

Dorthe Bomholdt Ravnsbæk"s 42 research works with 287 citations and 1,654 reads, including: Local and Global Structures in the Phase Evolution of P2-Na x Fe y Mn 1- y O 2 Electrodes for Na-Ion ...

Based in northern Aarhus, Denmark, Viridus Manufacturing A/S produces lithium-ion battery solutions for e-bikes and other applications such as robots and industry. It was founded in 2019 as a joint venture between Danish e-bike solutions company Promovec Group A/S, and Chinese company Greenway, with the latter holding a majority stake of 51%.

In the years to come, researchers from Aarhus University will develop a completely new type of battery for electric vehicles that can be recharged in six minutes and has a range of 350 kilometres. The goal is for ...

Aarhus University | Denmark | about 1 month ago technologies and processes to create a new concept of an intelligent, modular, and scalable battery pack for a wide range of electric cars used in urban electromobility services, from mid-size electric vehicles

The company Viridus has started the production of e-bike Lithium-Ion batteries at its modern Aarhus facility. Viridus expects to be producing 50,000 green batteries for electric bicycles annually by the end of 2019. - Photo Viridus. Viridus aims ...

In March 2023, the Danish Center for Energy Storage (DaCES) hosted the Danish Battery Summit 2023 in Sønderborg together with the University of Southern Denmark and the Danish Battery Society The event attracted almost 100 participants and clearly showed a significant potential in a growing Danish battery sector.
