

#### What is a dual-glass module?

Dual-glass type modules (also called double glass or glass-glass) are made up of two glass surfaces, on the front and on the rear with a thickness of 2.0 mm each. Some manufacturers, in order to reduce the weight of the modules, have opted for a thickness of 1.6 mm. DualSun has chosen to stay with a thickness of 2.0 mm for reasons explained below.

#### What is a glass-glass module?

Glass-Glass module designs are an old technology that utilises a glass layer on the back of modules in place of traditional polymer backsheets. They were heavy and expensive allowing for the lighter polymer backsheets to gain the majority of the market share at the time.

#### Who is glassai?

GlassAI is your reliable partner in upgrading and building new automotive glass manufacturing lines. We are specialized in developing customized manufacturing solutions including windshield bending furnaces and press modules, but we can also support you with smaller modifications and spare parts.

#### What is the thickness of a glass module?

The thickness of the front glass generally used for this type of structure is 3.2 mm. Dual-glass type modules (also called double glass or glass-glass) are made up of two glass surfaces, on the front and on the rear with a thickness of 2.0 mm each.

#### What is a glass-backsheet module?

In the case of a glass-backsheet module, not only is the upper glass layer thicker (3.2 mm versus 2.0 mm) but also this layer is fully tempered glass, whereas in the case of a thickness of 2.0 mm, the glass is only semi-tempered due to technical limitations of the tempering process.

#### What are I-Topcon double glass PV modules?

The new i-TOPCon double glass PV modules integrate these N-type bifacial i-TOPCon cellswith over 80% bifaciality,multi-busbar (MBB) design,full square monocrystalline cells,dual-side and half-cut technologies.

Find detailed information on Glass and Glass Product Manufacturing companies in Tampere, Pirkanmaa, Finland, including financial statements, sales and marketing contacts, top competitors, and firmographic insights.

Tepcomp Group is a leading Finnish industrial contract manufacturer that has been operating since 1985. As a contract manufacturer specialised in electronics, we focus on health care technology and industrial electronics. ...
