

EK-eb70 outdoor power supply

How do I charge the eb70?

In addition, the EB70 can be charged via the supplied 12V car charger, or in combination with solar panels. Via the solar input, (max 200 W - 28V) you can create a powerful self-sufficient energy system to power electronic devices with a maximum power of 1000 W (1400 W peak power).

What is a Bluetti eb70 power station - EU version?

The Bluetti EB70 Power Station - EU version is one of the lightest Power Stations from our range. With a weight of 9.7 kg and its simple operation, the power station is extremely handy to have wherever you go. The big advantage of the Bluetti EB70 is the LiFePO4 battery. A LiFePO4 battery has a long lifespan +/- 2500 cycles.

What outputs does the Bluetti eb70 have?

The Bluetti EB70 has several outputs, from USB-A, USB-C PD (2 x 100 W each), Wireless Qi, 12V - 10A (regulated) & 230 volt AC. The Bluetti EB70 is equipped with a clear display on the front. You can view the input and output in Watts and Volts. The display also clearly shows the charging status of the battery.
