Huawei wins energy storage project

What's new with Huawei's energy storage business?

What's new: A unit of Huawei Technologies Co. Ltd. has won a contract to help build what it says is the world's largest energy storage project in Saudi Arabia, the company announced Monday, as it seeks to expand beyond its core telecommunications gear business.

What is Huawei doing with energy storage?

Huawei is integrating digital information technology with PV and energy storage technologies build a more efficient, stable, and safe smart string energy storage system using intelligent and modular designs. Huawei currently has 8 GWh of energy storage system applications in operation.

What is Huawei digital power doing in Saudi Arabia?

Chinese tech giant Huawei Digital Power has signed a contract for a 400 MW PV plus 1300 MWh battery energy storage projectin Saudi Arabia with China's SEPCOIII, a construction and engineering company and power plant operator.

At the summit, Huawei Digital Power signed a key contract with SEPCOIII for the Red Sea Project with 400 MW PV plus 1300 MWh battery energy storage solution (BESS), which is currently the world"s largest energy storage project. The two parties will cooperate to help Saudi Arabia build a global clean energy and green economy center.

The 1300 MWh off-grid energy storage project is the largest of its kind in the world according to Huawei. The two parties will cooperate to help Saudi Arabia build a global clean energy and green economy center. Did you ...

Huawei Digital Power has concluded its Global Digital Power Summit 2021 in Dubai, UAE, with more than 500 participants from 67 countries attending, on October 16. At the summit, Huawei Digital Power signed a key contract with SEPCOIII for the Red Sea Project with 400 MW PV plus 1300 MWh battery ener

Huawei Digital Power has concluded its Global Digital Power Summit 2021 in Dubai, UAE, with more than 500 participants from 67 countries attending, on October 16. At the summit, Huawei Digital Power signed a key contract with SEPCOIII for the Red Sea Project with 400 MW PV plus 1300 MWh battery energy storage solution (BESS), which is currently the world"s ...

Huawei Technologies won a contract for the world"s largest energy storage project in the Middle East, representing the tech giant"s expansion in the energy industry. Huawei has established an independent Digital Power ...
