Inverter as 220v inverter

What voltage does a 220 volt Inverter Supply?

An inverter converts a 220 Volt DC voltage (battery) into an AC voltage (230V-50Hz). The standard output voltage is 230 Volt,50Hz with a pure sine wave. This means that this inverter supplies the same type of voltage as the wall socket. This allows any electrical device to work on it. What should you be aware of?
