

Solar Steel Roof Tiles

What is a solar roof?

Solar Roof is comprised of both glass solar tiles and steel roofing tiles. Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection.

Are solar roof tiles a good choice?

Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection. With a 25-year warranty, Solar Roof will continue to produce clean energy and protect your home for decades to come.

What are solar tiles?

Take a look at solar tiles! These innovative tiles seamlessly integrate solar technology into your roof, providing clean and renewable energy while improving your home's curb appeal. So say goodbye to unsightly solar panels and hello to a fashionable and environmentally conscious option.

How to choose a solar roof?

Compared to conventional roofing materials, solar tiles often contribute greater weight. Thus, a sturdy roof is necessary to support the load. Energy production is a crucial factor to consider when selecting solar tiles. Think about solar tiles' electricity output, which is between 25W and 114W.

What is a Tesla Solar Roof?

Enhance your home's appearance with the sleek and contemporary design of the Tesla Solar Roof. Generate the most energy possible, even on roofs with complicated angles and intermittent sunlight. Glass solar tiles and architectural-grade steel tiles, vent covers, and ridge caps come together to form a roof that is both durable and powerful.

What is a Tesla Solar Roof & Powerwall?

Experience the Tesla Solar Roof and power your home with an advanced, fully integrated solar and energy storage system with the addition of a Tesla Powerwall. Tesla's innovative glass solar tiles and robust steel roofing tiles are designed to provide superior energy efficiency while enhancing the visual appeal of your home.

Solar Roof is constructed with a combination of glass solar tiles and architectural-grade steel tiles. Each tile is virtually indistinguishable in color and trim. Solar Roof is built to enhance your home's design and looks incredible from any angle. Built to Last. Solar Roof is a premium roof with the added benefit of solar production.
