

Are solar roof tiles a good choice?

Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection. With a 25-year warranty, Solar Roof will continue to produce clean energy and protect your home for decades to come.

What is a solar roof?

Solar Roof is comprised of both glass solar tiles and steel roofing tiles. Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection.

How strong are solar tiles?

The solar tiles go above and beyond the highest impact rating of Class 4 impact resistance. One solar company claims that its Solar Tiles are 3x stronger than other roofing materials. The solar tiles have a strong resistance to wind. They are rated for wind speeds up to 130 mph.
