The best photovoltaic solar panels

Which type of solar panels are most efficient?

Monocrystalline solar panels are the most efficient type of solar panel currently on the market. The top monocrystalline panels now all come with 22% efficiency or higher, and manufacturers are continually raising this bar.

Which solar panels are the best for my home?

When choosing the best solar panels for your home, consider the following key factors: the type of solar panel, power output, efficiency, performance in warm climates, warranty, and price. Top brands like SunPower, REC, Panasonic, Maxeon, and Jinko Solar offer high-quality options. Your roof space, shading, and climate can also influence the best choice for your home.

Are solar panels efficient?

Most solar panels are at least 20% efficient, but the best ones are over 22% efficient. We reviewed the efficiency ratings of hundreds of home solar panel models and found that five brands stood out: Maxeon, Qcells, Canadian Solar, REC, and Panasonic.

Who makes the best solar panels?

Silfabdistinguishes itself as one of the top American solar panel manufacturers, and we highly recommend its products. Discover what our experts say in our Silfab Solar panel review. In 5th place is Jinko Solar, one of the biggest solar manufacturers in the world. Jinko Solar is best known for its low prices and dependable solar panels.

What are the best solar panels for residential applications?

The EverVolt series, designed primarily for residential applications, are available in power ratings from 350W to 380W with a maximum efficiency of 21.7%, making them some of the most efficient panels available. Hanwha Qcells is a well-known, high-volume panel manufacturer offering quality, reliable panels for residential and commercial rooftops.

How do I choose the best solar panels?

To choose the best solar panels, consider the five top brands: SunPower, REC, Panasonic, Maxeon, and Jinko Solar. These brands offer high-quality panels and strong warranties. Additionally, look for panels with high efficiency and performance ratings.

It's no surprise that the solar team has picked the REC Pure-RX 450 / 460-watt modules as our MVP for 2025. REC is a long-standing manufacturer in the "best of" lists and their inclusion as the overall winner for 2025 is a testament to the company's continued commitment to delivering outstanding efficiency and power with good value.
