What is the main benefit of 120 watt solar street lights?

The main benefit of 120 watt solar street lights is that they help places with scarce electricity to have lights at night. Second Sun is an expert of solar power system in China, and can better provide customers with more professional solutions.

Are solar street lights a good choice?

Solar street lights, especially those with large solar panels like our 120 watt model, are a good choice because they can convert more solar energy and store more electricity, leading to longer lighting times.

What are the advantages of solar street lights in China?

The application of 120 watt solar street lights has brought light to many areas in China where electricity is scarce. Second Sun, an expert in solar power systems, offers professional solutions. Some advantages include: new technology, highly waterproof battery box design, and more.

What is a 6V/16W solar panel?

HIGH EFFICIENT SOLAR PANELS - The 6V/16W polycrystalline solar panel can convert up to 20% of the sunlight into electricity energy. Built-in 16000mAh LiFePO4 battery, it can be fully charged within only 6 hours and providing 12 hour continuous working time.

The light can be set to auto on/off at dusk and dawn, full brightness for three, five and eight hours at a time or always on with the included remote control. The motion sensor setting allows the light to be at half-brightness and automatically go to full brightness when motion is detected. Our 120-watt solar light can provide between 600-1200 ...
