Abu Dhabi is the city of United Arab Emirates (formerly Trucial States, or Trucial Oman), and the federation's national capital. The city takes up the majority of the same-named small triangular island just off the Persian Gulf coast and is connected to the mainland by a short bridge.

The favorable solar conditions in the Middle East region are part of the reason why there is a favorable outlook for the solar market industry in the United Arab Emirates. The combination of the sunny weather, cheap financing, supportive tax policies, and low labor costs contribute to lowering the cost of solar PV components in the United Arab ...

Well known as a major oil exporter, the United Arab Emirates seemed an unlikely place for a renewable energy boom until not long ago. Over the last decade, however, major investments of the country's substantial economic resources have built a rapidly growing solar energy industry that leads the region, frequently setting global pricing records and that is seen ...

Dubai: As one of the leading commercial centers in the world, Dubai is a significant hub for solar garden light factories. The city is well-known for its innovative approach towards technology and sustainability, traits that echo in the functioning of its solar garden light manufacturers. These manufacturers have access to state-of-the-art technology and premium quality materials, ...
